*Forever Burn* Aug 26 2020 Tatum Everley is a freshman at Western Michigan University. Due to an emotionally and psychologically abusive past relationship, Tate struggles from Complex-Post Traumatic Stress Disorder. She has been working on controlling her symptoms and flashbacks, but when she meets Axel Burne at a fraternity party, who is notorious for sleeping around and getting into fights, she tries her best to dodge the bullet. Axel starts to become intrigued by Tate, but she's

better off choosing Lucas- the sweet guy who has been trying to take her out since orientation. But even though Lucas is the better option, Axel keeps reappearing. Tate continues to try to stay away from him, but it starts becoming harder to, and as she gets closer to him, things start to get way out of hand. If Tate wants her happy ending and her sanity intact, then she has to push through the hardships and maintain control over her disorder.

Archaeology in Africa. Potentials and perspectives on laboratory & fieldwork research Oct 28 2020 Africa encompasses a multitude of environments and biomes that require specific scientific strategies - from desktop studies to field research to laboratory analysis - to tackle research questions that may range from the emergence of early humans to the ethnoarchaeological investigation. In several areas, turmoil, social instability and security constraints hamper or limit field activities and long-term funded programs. The kidnapping of German colleagues and the tragic death of two local collaborators in Nigeria urge to rethink our agenda and challenge our view of current research practice. This 1st Workshop on "Archaeology in Africa", organized by Sapienza University of Rome, convened several researches from Italy or Italy-based researchers. The aim was to present and discuss theoretical, methodological and financial problems for Africanist researchers today. In a global perspective, the synergy between research groups is crucial. The need to intensify the national and international cooperation is also an essential step. This book collects a selection of the different perspectives presented to the workshop, mostly focussing from North Africa and East Africa.

Internet Addiction Sep 07 2021 The second edition of this successful book provides further and in-depth insight into theoretical models

dealing with Internet addiction, as well as includes new therapeutical approaches. The editors also broach the emerging topic of smartphone addiction. This book combines a scholarly introduction with state-of-the-art research in the characterization of Internet addiction. It is intended for a broad audience including scientists, students and practitioners. The first part of the book contains an introduction to Internet addiction and their pathogenesis. The second part of the book is dedicated to an in-depth review of neuroscientific findings which cover studies using a variety of biological techniques including brain imaging and molecular genetics. The third part of the book focuses on therapeutic interventions for Internet addiction. The fourth part of the present book is an extension to the first edition and deals with a new emerging potential disorder related to Internet addiction - smartphone addiction. Moreover, in this second edition of the book new content has been added. Among others, the reader will find an overview of theoretical models dealing with Internet addiction, results from twin studies in the context of Internet addiction and additional insights into therapeutic approaches to Internet addiction.

**Special Relativity for Beginners** May 15 2022 This book, first appearing in German in 2004 under the title *Spezielle Relativitätstheorie für Studienanfänger*, offers access to the special theory of relativity for readers with a background in mathematics and physics comparable to a high school honors degree. All mathematical and physical competence required beyond that level is gradually developed through the book, as more advanced topics are introduced. The full tensor formalism, however, is dispensed with as it would only be a burden for the problems to be dealt with. Eventually, a substantial and comprehensive treatise on special relativity emerges which, with its gray-shaded formulary, is an invaluable reference manual for students and scientists alike. Some crucial results are derived more than once with different approaches: the Lorentz transformation in one spatial direction three times, the Doppler formula four times, the Lorentz transformation in two directions twice; also twice the unification of electric and magnetic forces, the velocity addition formula, as well as the aberration formula. Beginners will be

grateful to find several routes to the goal; moreover, for a theory like relativity, it is of fundamental importance to demonstrate that it is self-contained and without contradictions. Author's website: [www.relativity.ch](http://www.relativity.ch).

**High as the Waters Rise** Jul 17 2022 This "gorgeously written" National Book Award finalist is a dazzling, heart-rending story of an oil rig worker whose closest friend goes missing, plunging him into isolation and forcing him to confront his past (NPR, One of the Best Books of the Year). One night aboard an oil drilling platform in the Atlantic, Waclaw returns to his cabin to find that his bunkmate and companion, Mátyás, has gone missing. A search of the rig confirms his fear that Mátyás has fallen into the sea. Grief-stricken, he embarks on an epic emotional and physical journey that takes him to Morocco, to Budapest and Mátyás's hometown in Hungary, to Malta, Italy, and finally to the mining town of his childhood in Germany. Waclaw's encounters along the way with other lost and yearning souls—Mátyás's angry, grieving half-sister; lonely rig workers on shore leave; a truck driver who watches the world change from his driver's seat—bring us closer to his origins while also revealing the problems of a globalized economy dependent on waning natural resources. *High as the Waters Rise* is a stirring exploration of male intimacy, the nature of memory and grief, and the cost of freedom—the story of a man who stands at the margins of a society from which he has profited little, though its functioning depends on his labor.

*Affective Geographies* Mar 01 2021 For Miguel de Cervantes, to narrate a Mediterranean experience is to necessarily speak of an emotional experience. *Affective Geographies* takes as its point of departure the premise that literature is as influential in constructing the Mediterranean as are its geographic, climatic, or economic features. As the writer with the most vast and varied Mediterranean experience of his era, Cervantes is exceptionally well-suited for the critical task of recovering the literary Mediterranean. Engaging with the interdisciplinary fields of Mediterranean studies, affect theory, and the history of emotion, Paul Michael Johnson reads Cervantes's texts alongside the affective structures that inscribe the Mediterranean as a space of conflict, commerce, expansion, and empire. In particular, he argues that Cervantes's writing, with its uncommon focus on the Moorish, Islamic, and North African experience, can serve to realign misconceptions about the Mediterranean we have inherited today. *Affective Geographies* proposes that, with a more than four-hundred-year history of impacting the hearts and minds of readers, Cervantes's works constitute a literary *longue durée*, ramifying beyond fiction to alter the popular imaginary and long-term cultural landscape.

*Violence in the Ancient and Medieval Worlds* Jul 05 2021 Being an integral element of how humans interact with one another, violence, however disruptive, often also manifests itself as an ordering force. In this collection of essays, the contributing authors explore this particular aspect of violence from a wide variety of perspectives, in a set of studies that focus on both the ancient and medieval worlds. Case-studies in the section on Antiquity include work on such issues as domestic violence; violence and myth; violence in Greek and Roman historiography, poetry, comedy and tragedy, and art; women and violence; violence and pollution; and various studies on classical Greek and Roman perceptions of violence. The medieval section continues with papers that look into the role of violence in the saints' lives and passions, violence in the love poems of the *carmina burana*, as well as several studies that center on actual cases of violence, such as violence and women in medieval Galicia and violence at Portuguese universities during the High Middle Ages. This book is essential reading for everyone interested in how and why violence came to be embedded in the cultural practices of classical Greece, ancient Rome, and medieval Europe.

**A Lace Guide for Makers and Collectors** May 03 2021 A LACE GUIDE for MAKERS and COLLECTORS. This book includes a bibliography and a five-language nomenclature. It is hoped that this little manual will prove of use to students of stitchery in general, - or of bobbin lace in particular, - to see how certain meshes are woven; that it may aid those planning to produce lace either by hand or machine, in comparing and judging effects, in advance, and that it may assist collectors and classifiers to identify lace: for after all, it is the actual lace which finally determines a variety, only certain meshes being used in a lace of pure type. Originally published in 1917. Many of the earliest books on weaving, textiles and needlework, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

**The Monasteries and Monks of Nubia** Aug 18 2022 The volume is the first study of the archaeology of religion of Christian Nubia. It presents the material record of Nubian monasticism and offers a comparative analysis of this phenomenon. On the basis of archaeological and epigraphic data, the author reconstructs the life in Nubian monasteries. The work features a catalogue of archaeological sites tentatively identified as locations of monastic communities, as well as an overview of pertinent textual sources. Among the focal points are spatial aspects of the Nubian monastic movement, particularly the location of Nubian monasteries and their spatial organisation. Spatial analysis of monastic sites serves as a point of departure for insights into the social and economic matters of monastic communities in Nubia, which are central to the third part of the book. From the scarce sources the author recreates the complex spiritual and social dynamics present in monasteries, their management systems and competing hierarchies.

*Odes* Feb 18 2020 'Interspersed with acts of breathtaking linguistic daring.' Charlotte Mendelson, Observer Book of the Year Opening with a powerful and tender 'Ode to the Hymen', Sharon Olds uses this age-old poetic form to address many aspects of herself, in a collection that is centred around the female body and female pleasures, and touches along the way on parts of her own story which will be familiar from earlier works, each episode and memory now burnished by the wisdom and grace of looking back. In such poems as 'Ode to My Sister', 'Ode of Broken Loyalty', 'Ode to My Whiteness', 'Blow Job Ode', 'Ode to the Last 38 Trees in New York City Visible from This Window', Olds treats us to an intimate self-examination that, like all her work, is universal and by turns searing and charming in its honesty. From the early bodily joys and sorrows of her girlhood to the recent deaths of those dearest to her - the 'Sheffield Mountain Ode' for Galway Kinnell is one of the most stunning pieces here - Olds shapes her world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

**The Egyptian Sudan** Sep 19 2022 The Egyptian Sudan is a detailed account of early travels and archaeological missions to the Sudan in Egypt. The two-volume series contains illustrations and explanations of the dig sites and artifacts excavated, the history behind the pyramids and temples explored, and the details of the actual trips to Sudan and the scientists who took them. A wonderfully explicit and precise series for anyone interested in archeology and Egyptian artifacts, *The Egyptian Sudan* is a must-read. Volume II contains the histories of the Sudan during different historical periods, including the rise of the Nubian kingdom, their successors, the Sudan in the Ptolemaic Period, before and after Christ, the rule of Muhammad in the Sudan, the rise of Christianity, and finally Sudan in the modern day. SIR ERNEST ALFRED THOMPSON WALLIS BUDGE (1857-1934) was born in Bodmin, Cornwall in the UK and discovered an interest in languages at a very early age. Budge spent all his free time learning and discovering Semitic languages, including Assyrian, Syriac, and Hebrew. Eventually, through a close contact, he was able to acquire a job working with Egyptian and Iraqi artifacts at the British Museum. Budge excavated and deciphered numerous cuneiform and hieroglyphic documents, contributing vastly to the museum's collection. Eventually, he became the Keeper of his department, specializing in Egyptology. Budge wrote many books during his lifetime,

most specializing in Egyptian life, religion, and language.

**Automotive Mechatronics: Operational and Practical Issues** Dec 22 2022 This book presents operational and practical issues of automotive mechatronics with special emphasis on the heterogeneous automotive vehicle systems approach, and is intended as a graduate text as well as a reference for scientists and engineers involved in the design of automotive mechatronic control systems. As the complexity of automotive vehicles increases, so does the dearth of high competence, multi-disciplined automotive scientists and engineers. This book provides a discussion into the type of mechatronic control systems found in modern vehicles and the skills required by automotive scientists and engineers working in this environment. Divided into two volumes and five parts, *Automotive Mechatronics* aims at improving automotive mechatronics education and emphasises the training of students' experimental hands-on abilities, stimulating and promoting experience among high education institutes and produce more automotive mechatronics and automation engineers. The main subject that are treated are: VOLUME I: RBW or XBW unibody or chassis-motion mechatronic control hypersystems; DBW AWD propulsion mechatronic control systems; BBW AWB dispulsion mechatronic control systems; VOLUME II: SBW AWS conversion mechatronic control systems; ABW AWA suspension mechatronic control systems. This volume was developed for undergraduate and postgraduate students as well as for professionals involved in all disciplines related to the design or research and development of automotive vehicle dynamics, powertrains, brakes, steering, and shock absorbers (dampers). Basic knowledge of college mathematics, college physics, and knowledge of the functionality of automotive vehicle basic propulsion, dispulsion, conversion and suspension systems is required.

The Future of Fisheries Science in North America Dec 30 2020 Fisheries science in North America is changing in response to a changing climate, new technologies, an ecosystem approach to management and new thinking about the processes affecting stock and recruitment. Authors of the 34 chapters review the science in their particular fields and use their experience to develop informed opinions about the future. Everyone associated with fish, fisheries and fisheries management will find material that will stimulate their thinking about the future. Readers will be impressed with the potential for new discoveries, but disturbed by how much needs to be done in fisheries science if we are to sustain North American fisheries in our changing climate. Officials that manage or fund fisheries science will appreciate the urgency for the new information needed for the stewardship of fish populations and their ecosystems. Research organizations may want to keep some extra copies for a future look back into the thoughts of a wide range of fisheries professionals. Fisheries science has been full of surprises with some of the surprises having major economic impacts. It is important to minimize these impacts as the demand for seafood increases and the complexities of fisheries management increase.

**Empress of Flames** Jan 19 2020 In this epic conclusion to The Girl King, two sisters war for a crown that was never meant to be theirs - though only one can wear it. As the late-Emperor's first-born, Princess Lu knows the throne rightfully belongs to her. She also can't forget her promise to shapeshifter Nok, the boy she loves, to win justice for his now powerless

people. Yet even with an army at her side, Lu must face a major obstacle: the current Empress, her younger sister, Min. Princess Min used to live in Lu's shadow. Now she wields an ancient magic, one she's determined to use to forge her own path for the Empire, even if that means making enemies in court. But first, she must learn to control her power - before it consumes her . . . and the entire realm. Lu and Min are set for an epic confrontation, but the Empire faces a threat even greater than their rivalry. One that could cost them both the throne - and their lives. Praise for The Girl King: 'Everything I want in a high fantasy' Samantha Shannon, Sunday Times bestselling author 'Mimi Yu has that gift of magic' Marjorie Liu, New York Times bestselling author 'If you're down with dangerous magic, clans of shapeshifters, and worthy girls who somehow STILL need to prove their worth, then you will love this as much as I did' Kendare Blake, New York Times bestselling author *Honor Bound* Jun 16 2022 Love and death -- Kafka on the Tiber -- The protected section -- Justice -- Epilogue.
