 Palm Programming in Basic provides a foundation upon which programmers can develop applications for the Palm
 with very little knowledge of the OS itself. It is a comprehensive reference that gets professional programmers
 on AppForge, NS Basic, and CASL. The author, Jon Kilburn, shares his vast experience as a developer of dozens of
 applications for Palm OS in presenting the Palm programming strategies contained in this book. Kilburn clearly ex
 how to structure programs for Palm devices and how to develop conduits for passing information between PC o
 and Palm devices, and reviews the conduit tools available to developers. Palm Programming in Basic also includes
 to developing Web Clipping applications, an overview of Palm utilities that all programmers can use, and an appe
 performing data compression. A definitive sourcebook reveals the villains and evil organizations from the Forgotten
 Realms world. Maps & illustrations. Chip (???) – ??????? ??????????????????????? ? ??????. ??????????? ? 16 ???????

 environments suggest the many ways that video games enhance and extend our embodied lives.

about the latest music, video, gaming, media, digital and mobile entertainment issues and trends. For anyone who ever searched for the right word at a crucial moment, the revised third edition of this bestselling guide offers a succinct way to say everything. One million copies sold! How to Say It® provides clear and practical guidance for say--and what not to say--in any situation. Covering everything from business correspondence to personal letters, the perfect desk reference for anyone who often finds themselves struggling to find those perfect words for: * and sympathy letters * Letters to the editor * Cover letters * Fundraising requests * Social correspondence, including invitations and Announcements This new edition features expanded advice for personal and business emails, blogs, international communication. One of the outstanding mysteries of the twentieth century, and one with huge political resonance, is the death of Dag Hammarskjöld and his UN team in a plane crash in central Africa in 1961. Just minutes after midnight, his aircraft plunged into thick forest in the British colony of Northern Rhodesia (Zambia), abruptly ending his mission to bring peace to the Congo. Across the world, many suspected sabotage, accusing the multi-national governments of Britain, Belgium, the USA and South Africa of involvement in the disaster. These suspicions have now gone away. British High Commissioner Lord Alport was waiting at the airport when the aircraft crashed nearby. Alport bizarrely insisted to the airport management that Hammarskjöld had flown elsewhere - even though his aircraft was reported overhead. This postponed a search for so long that the wreckage of the plane was not found for fifteen days. White mercenaries were at the airport that night too, including the South African pilot Jerry Puren, whose bomb attacks on Congolese villages led, in his own words, to 'flaming huts ...destruction and death'. These soldiers of fortune were recruited by Sir Roy Welensky, Prime Minister of the Rhodesian Federation, who was ready to stop at nothing to maintain white rule and thought the United Nations was synonymous with the Nazis. The Rhodesian government conducted an official inquiry, which blamed pilot error. But as this book will show, it was a massive cover-up that suppressed and destroyed a mass of crucial evidence, especially that of African eye-witnesses. A subsequent UN inquiry was unable to rule on the case - but had no access to the evidence to show how and why. Now, for the first time, this story can be told. The author follows Hammarskjöld on her intriguing and often frightening journey of research to Zambia, South Africa, the USA, Sweden, Norway, Britain, France and Belgium, where she unearthed a mass of new and hitherto secret documentary and photographic evidence. At the heart of this book is Hammarskjöld himself - a courageous and principled idealist, who sought to shield the newly-independent nations of the world from the predatory instincts of the Great Powers. It reveals that the conflict in the Congo was driven not so much by internal divisions, as by the Cold War and by the West's determination to keep real power from the hands of the post-colonial governments of Africa. It shows, too, how the British settlers of Rhodesia would maintain white minority rule at all costs.

Android ist der unumstrittene Markt für den Smartphone-Systemen. Die c't-Redaktion hat Android unter die Haube geschaut und zeigt, wohin sich das Betriebssystem entwickelt. In der Diskussion um die Datenkrake Google fällt immer wieder die enge Verknüpfung von Android auf, mehrere Artikeln stellen dar, wie Sie Ihr Smartphone von den Google-Diensten entkoppeln können. Ein Teststrecke gibt Ihnen Tests und Kaufberatungen an die Hand, mit denen Sie im Dschungel aktueller Smartphone-Tablets den Überblick bekommen, zusätzlich hat die Redaktion die neusten Smartwatches auf ihre Alltagstauglichkeit untersucht. In einem großen Praxisteil erfahren Sie, wie man einfache Hardware-Defekte selbst beheben kann, wie man mit Apps mehr aus Ihrem Mobilgerät herausholen und den mobilen Begleiter voll auf Ihre Bedürfnisse einrichten. Darüberhinaus bietet das Heft zwei Aktionen: 50 Prozent Rabatt (gültig bis 31.5.2015) auf das Verbatim Dual USB Pack und die Sicherheits-App Mobile Security & Antivirus von Eset kostenlos für ein Jahr. Die Aktivierung der App ist zum 31. Juli 2015 möglich.

This book constitutes the refereed proceedings of the Second International Conference on Security in Pervasive Computing, SPC 2005, held in Boppard, Germany in April 2005. The 14 revised full papers and 10 revised short papers presented together with abstracts of 5 invited talks were carefully reviewed and selected from 100 submissions. The papers are organized in topical sections on smart devices and applications, authentication, privacy, anonymity, and access control and information flow. (The updated edition of this book for the Nexus 7, Nexus 9 and Android 5 Lollipop is also available.) Perfect for new and experienced users, this no-fluff guide to the Google Nexus tablet is packed with tips and details on apps, services, settings, and documents. You'll also find step-by-step instructions for dictating, networking, sharing, troubleshooting, going online, and using Google Now. New apps and features covered include Camera, Clock, Google Keep, Android Device Manager, Play Games, Quick Settings, Lock-screen widgets, multiple users, restricted profiles, HDMI screen mirroring, external displays, Miracast, wireless charging, app verification, gesture typing, printing, cellular (LTE/HSPA+) connections, privacy options, Hangouts, the notification shade, the remodeled Google Play store, and the updated versions of Chrome, Gmail, and Maps. - Covers all Nexus models and Android 4.4 (KitKat).- Covers all Google Play edition (pure Android) tablets, including the LG G Pad 8.3. Master the Home screen, Lock screen, and multitouch gestures.- Secure your data from thieves, snoops, and rogues. Locate a lost or stolen Nexus remotely.- Work with onscreen or wireless keyboards.- Get instant search results for documents, pictures, music, mail, apps, contacts, and more.- Summon Google Now to get personalized information you need it.- Ask Google Search to find nearby businesses, set alarms, search the web, and more.- Dictate anyw

you can type.- Connect to wireless networks with a few taps.- Set up cellular, Bluetooth, and VPN connections.- Connect your tablet's screen to your TV.- Back up your data to the cloud.- Transfer files to and from your Windows PC or Mac computer.- Sync your documents, mail, contacts, appointments, reminders, notes, and messages wirelessly between your computers and mobile devices.- See all your notifications in one place.- Browse the web with Chrome.- Watch and subscribe to videos on the YouTube app.- Send, receive, and manage your email with Gmail or Email.- Chat with family and friends on Hangouts.- Post to Twitter or Facebook right from the app you're using.- Manage your day-to-day life with Calendar, People, Google Keep, and Clock.- Find your way with Maps.- Download apps, games, and updates from the Google Play store.- Connect to Google's online multiplayer social gaming network.- Play music, movies, TV shows, and other media downloaded from the Google Play store.- Capture, edit, and share photos and videos with Camera and Gallery.- Care for your Nexus and troubleshoot problems.- Plenty of tips, tricks, and timesavers.- Fully cross-referenced, linked, and searchable.

Here's a chance to learn the 200 real rules of poker, including descriptions of the characters, the right food (pizza, cold cuts) and the food to serve; betting strategies that keep the player from losing too much too early; dealing, talking; and the do's of a minimal standard of behavior. A limited, large-format edition of this gorgeous study of apples, featuring a print of the photograph titled Hidden Rose housed in a pergamin paper sleeve inserted in the book.

Odd Apples includes a print of the photograph titled Hidden Rose housed in a pergamin paper sleeve inserted in the book. Mullan's obsession with apples began when he saw his first Egremont Russet at a Waitrose grocery store outside London. Fascinated by its gnarled, potato-like appearance and shockingly fresh, nutty flavor, Mullan began searching for, and photographing, rare apple varieties. In Odd Apples, each apple is lovingly rendered and styled according to its individual "personality"--a combination of its looks and its flavors. The apples are set against complementary brightly colored backdrops; they are peeled or unpeeled, cut or whole, skin shriveled or perfectly smooth and shiny. Mullan embraces each apple's idiosyncratic aesthetic qualities completely.
