North Carolina's state constitution charts the evolution over two centuries of a modern representative democracy. In *The North Carolina State Constitution*, John V. Orth and Paul M. Newby provide an outstanding constitutional and historical account of the state's governing charter. In addition to an overview of North Carolina's constitutional history, it provides an in-depth, section-by-section analysis of the entire constitution, detailing the many significant changes that have been made since its initial drafting. This treatment, along with a table of cases, index, and bibliography provides an unsurpassed reference guide for students, scholars, and practitioners of North Carolina's constitution. Co-authored by Paul M. Newby, a sitting justice of the North Carolina Supreme Court, the second edition includes

significant constitutional amendments adopted since the date of the first edition. Almost every article was affected by the changes. Some were minor-such as the lengthening the term of magistrates-and some were more significant, such as spelling out the rights of victims of crimes. One was obviously major: granting the governor the power to veto legislation-making North Carolina's governor the last American governor to be given that power. In addition, the North Carolina Supreme Court has continued the seemingly never-ending process of constitutional interpretation. Some judicial decisions answered fairly routine questions about the powers of office, such as the governor's clemency power. Others were politically contentious, such as deciding the constitutional constraints on legislative redistricting. And one continues to have momentous consequences for public education, recognizing the state's constitutional duty to provide every school child in North Carolina with a "sound, basic education." The Oxford Commentaries on the State Constitutions of the United States is an important series that reflects a renewed international interest in constitutional history and provides expert insight into each of the 50 state constitutions. Each volume in this innovative series contains a historical overview of the state's constitutional development, a section-by-section analysis of its current constitution, and a comprehensive guide to further research. Under the expert editorship of Professor G. Alan Tarr, Director of the Center on State Constitutional Studies at Rutgers University, this series provides essential reference tools for understanding state constitutional law. Books in the series can be purchased individually or as part of a complete set, giving readers unmatched access to these important political documents. Air Assault is a combat insertion unit using helicopters to transport and insert soldiers into battle, provide medical evacuation, provide close air support, provide resupply operations. It is usually a company or bat-talion sized element. The term Air Assault derives from two types of operations known as Air Mobility and Vertical Envelopment. Air Mobility Operations were de-veloped by the German Army during WWII in the 1930's. The US Army soon adopted this method of offensive operations in 1941 using wooden gliders. The glider was assisted into the air by being towed by a larger aircraft and then released. The pilot had to navigate the large glider loaded with a team of infantry soldiers to the landing zone behind enemy lines, at night and attempt to land safely. Once the pilot landed the glider, he would join the mission as another infantry soldier with the team that he flew in. Although the gliders and techniques used were advanced for that time period they did pose some disadvantages. Once the aircraft was landed safely that team of soldiers were cut off from allied troops. Pilots had to be cross trained with infantry tactics so he could operate as both roles. The air mobility glider was abandoned after WWII after the invention of the helicopter. PREFACE 1 November 2011 1. The Sabalauski Air Assault School (TSAAS) is a FORSCOM TDA unit that trains leaders and Soldiers assigned to the 101st Airborne Division (Air Assault), as well as other Army units and armed services in several courses. By conducting the Air Assault and Pathfinder Courses The Sabalauski Air Assault School develops technically proficient and confident Soldiers capable of safely executing immediate and sustained air assault operations. The school also trains and qualifies military Rappel Masters, Fast Rope Masters and SPIES Masters in the application of infiltration and extraction techniques. The school provides quality

basic airborne refresher and jumpmaster refresher training to airborne capable units. Finally, the school provides command and control of the 101st Airborne Division (Air Assault), Screaming Eagle Parachute Team. 2. This handbook is designed to facilitate the mission of the school, serving as a baseline of information for the Air Assault Course. It is not a substitute for applicable Army regulations, field manuals, training circulars, or technical manuals, but it is designed to complement the guidance in these publications in the area of air assault operations. The 101st Airborne Division (Air Assault) disclaims any responsibility for incidents occurring while applying these procedures. 3. The proponent for this handbook is the Commander of The Sabalauski Air Assault School. This 2011 update provides users with the latest doctrinal information regarding Air Assault Operations. Users of this publication are encouraged to recommend improvements or changes in writing to ACofS, G3/5/7/DPTM; ATTN: AFZB-K-GT-AA, Fort Campbell, KY 42223-5000. The 101st Airborne Division (Air Assault) has a long and rich heritage. As the world's only functional Air Assault Division, the 101st Airborne has pioneered the development of Air Assault tactics, techniques and procedures (TTPs). These tactics were quantifiably demonstrated in 1991 during Operation Desert Storm and most recently during Operation Enduring Freedom and Operation Iraqi Freedom. We are currently at war with dangerous and adaptive terrorist forces in complex environments. In response, the Division continually refines its TTPs, exploiting our unique capabilities to defeat our nation's enemies. This reference publication, The Gold Book June 2014, re-establishes the baseline for the planning and execution of Air Assault operations. Monthly. Lists of new books, pamphlets, official publications, brochures, reports, and journal articles in medicine and allied fields. Also includes forthcoming congresses to be held in Britain and the Commonwealth. No index. Over recent decades, international humanitarian law has been shaped by the omnipresence of so-called expert manuals. Astute and engaging, this discerning book provides a comprehensive account of these black letter rules and commentaries produced by private expert groups and demonstrates why the general acceptance of these expert manuals is largely unjustified. The author innovatively links interdisciplinary insights to the needs of military lawyers in practice, showing the pitfalls of relying on private manuals as arguable restatements and interpretations of the law 'as it is'. Moger's study explores the personal experience of those who found themselves on the 'losing side' of the Reformation. Using the private diary of Catholic priest, Wolfgang Königstein, Moger discusses the early years of Protestantism and its effects on the lives of German Catholics. The translation of Erasmus's Manual of the Christian Soldier, thought to be by William Tyndale, is one of the foundational texts of the English Reformation. The present edition is based for the first time on the recently-discovered manuscript dating from 1523. It is accompanied by translations of other key religious works, Erasmus's treatise on the Lord's Prayer and the introduction to the New Testament; by the anti-papal satire, Julius Exclusus; and by the Epistle in Praise of Matrimony and the Proverbs, both translated by the English Erasmian, Richard Taverner, in support of Thomas Cromwell's reformist agenda. "From meetings and conversation with men, love affairs arise. In the midst of pleasures, banquets, dances, laughter, and self-indulgence, Venus and her son Cupid reign supreme. . . . Poor young girl, if you emerge from these encounters a captive prey! How much better it would have been to remain at home or to have broken a leg of the body rather than of the mind!" So wrote the sixteenth-century Spanish humanist Juan Luis Vives in a famous work dedicated to Henry VIII's daughter, Princess Mary, but intended for a wider audience interested in the education of women. Praised by Erasmus and Thomas More, Vives advocated education for all women, regardless of social class and ability. From childhood through adolescence to marriage and widowhood, this manual offers practical advice as well as philosophical meditation and was recognized soon after publication in 1524 as the most authoritative pronouncement on the universal education of women. Arguing that women were intellectually equal if not superior to men, Vives stressed intellectual companionship in marriage over procreation, and moved

beyond the private sphere to show how women's progress was essential for the good of society and state. *Because of Eve* is a thorough examination of how the Church and Christian men sought to define women and the roles women must play within the church, home, and society for more than two thousand years. The book examines the works of theologians, decrees of councils, canon law, statements of faith, and a myriad of other pronouncements that affected their generation--and the following generation's--beliefs concerning women. Each chapter considers the era in which these beliefs were voiced, as much of what was accepted as orthodoxy was reflected in or based on cultural beliefs.

WORDS OF PRAISE This important study surveys the roles of women, roles often assigned to them by men, through both biblical testaments and across Christian history to the contemporary church. It is a significant research resource for understanding historical, theological, spiritual and cultural interactions between males and females and the religious dogmas that influenced and divided them. ---Bill J. Leonard, Emeritus Professor of Divinity, Wake Forest University

Joseph Early has meticulously researched the primary sources throughout the history of the Church to show definitively how men, for their own purposes, have used the Bible to categorize and define women. Early then goes further to show how these erroneous and unbiblical beliefs are reflected and amplified in some modern-day theologies and practices. As an observer of this six-year long research project, I can attest to the author's innate dedication and fidelity to the task of showing how God's word is not detrimental to women but instead uplifts them as co-heirs with Christ and indeed, on equal ground with their brothers in Christ. --Twyla K. Hernández, Professor of Missions, Campbellsville University

Joseph Early's *Because of Eve: Historical and Theological Survey of the Subjugation of Women in the Christian Tradition* is an incredibly useful compendium of Christian men's beliefs about women across church history. With careful detail and ample primary source evidence, Early demonstrates how for most of church history, men have offered biblical interpretations and constructed misogynistic theologies that maintain and reproduce the subordination of women. This volume will be helpful for academics and general readers alike for its comprehensive documentation of the treatment of women in men's thinking and writing from biblical times until the present. ---Susan M. Shaw, Professor of Women, Gender, and Sexuality Studies, Oregon State University
