This book aims to explore the different ways in which this war has featured both as a genre and as a theme in British literature of the past century; it asks what actually is the literature of the Great War, and looks at different ways in which people have read this literature, reacted to it and used it.

British Literature 1640 -1789 Feb 18 2020 The new edition of this successful anthology continues to challenge the boundaries of eighteenth-century literary study whilst thorough revisions make it even more useful to teachers and students. Includes more Dryden and Behn, as well as Congreve's *The Way of the World*. Retains the historical span and range of texts, canonical and previously marginalised, that made the first edition so attractive. Continues to represent many texts in their entirety, including Samuel Johnson's *Rasselas*, Jonathan Swift's *A Tale of a Tub*, Eliza Haywood's *Fantomina*, Aphra Behn's *Oronooko*, Alexander Pope's *Rape of the Lock* and Daniel Defoe's *Shortest Way with the Dissenters*. An edited volume of critical essays, *British Literature 1640-1789: A Critical Reader* (Blackwell Publishers, 1999), accompanies this anthology providing the material for a complete course.

The Broadview Anthology of British Literature Volume 2: The Renaissance and the Early Seventeenth Century - Third Edition Jul 25 2020 In all six of its volumes *The Broadview Anthology of British Literature* presents British literature in a truly distinctive light. Fully grounded in sound literary and historical scholarship, the anthology takes a fresh approach to many canonical authors, and includes a wide selection of work by lesser-known writers. The anthology also provides wide-ranging coverage of the worldwide connections of British literature, and it pays attention throughout to issues of race, gender, class, and sexual orientation. It includes comprehensive introductions to each period, providing in each case an overview of the historical and cultural as well as the literary background. It features accessible and engaging headnotes for all authors, extensive explanatory annotations, and an unparalleled number of illustrations and contextual materials. Innovative, authoritative and comprehensive, *The Broadview Anthology of British Literature* has established itself as a leader in the field. The full anthology comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible by using the passcode obtained with the purchase of one or more of the bound volumes. For the third edition of this volume a considerable number of changes have been made. Newly prepared, for example, is a substantial selection from Baldassare Castiglione's *The Courtier*, presented in Thomas Hoby's influential early modern English translation. Thomas Kyd's *The Spanish Tragedy* is another major addition. Also new to the anthology are excerpts from Thomas Dekker's plague pamphlets. We have considerably expanded our representation of Elizabeth I's writings and speeches, as well as providing several more cantos from Edmund Spenser's *Faerie Queene* and adding selections from Sir Philip Sidney's *Arcadia*. We have broadened our coverage, too, to include substantial selections of Irish, Gaelic Scottish, and Welsh literature. (Perhaps most notable of the numerous authors in this section are two extraordinary Welsh poets, Dafydd ap Gwilym and Gwerful Mechain.) Mary Sidney Herbert's writings now appear in the bound book instead of on the companion website. Margaret Cavendish, previously included in volume 3 of the full anthology, will now also be included in this volume; we have added a number of her poems, with an emphasis on those with scientific themes. The edition features two new Contexts sections: a sampling of "Tudor and Stuart Humor," and a section on "Levellers, Diggers, Ranters, and Covenanters." New materials on emblem books and on manuscript culture have also been added to the "Culture: A Portfolio" contexts section. There are many additions the website component as well—including Thomas Deloney's *Jack of Newbury* also published as a stand-alone BABL edition). We are also expanding our online selection of transatlantic material, with the inclusion of writings by John Smith, William Bradford, and Anne Bradstreet.

Popular Children's Literature in Britain Apr 02 2021 The astonishing success of J.K. Rowling and other contemporary children's authors has demonstrated how passionately children can commit to the books they love. But this kind of devotion is not new. This timely volume takes up the challenge of assessing the complex interplay of forces that have created the popularity of children's books both today and in the past. The essays collected here ask about the meanings and values that have been ascribed to the term 'popular'. They consider whether popularity can be imposed, or if it must always emerge from children's preferences. And they investigate how the Harry Potter phenomenon fits into a repeated cycle of success and decline within the publishing industry. Whether examining eighteenth-century chapbooks, fairy tales, science schoolbooks, Victorian adventures, waif novels or school stories, these essays show how historical and publishing contexts are vital in determining which books will succeed and which will fail, which bestsellers will endure and which will fade quickly into obscurity. As they considering the fiction of Angela Brazil, Enid Blyton, Roald Dahl and J.K. Rowling, the contributors carefully analyse how authorial talent and cultural contexts combine, in often unpredictable ways, to generate - and sometimes even sustain - literary success.

Black British Literature Jan 11 2022 In this fascinating book, Mark Stein examines black British literature, centering on a body of work created by British-based writers with African, South Asian, or Caribbean cultural backgrounds. Linking black British literature to the bildungsroman genre, this study examines the transformative potential inscribed in and induced by a heterogeneous body of texts. Capitalizing on their plural cultural

attachments, these texts portray and purvey the transformation of post-imperial Britain. Stein locates his wide-ranging analysis in both a historical and a literary context. He argues that a cross-cultural and interdisciplinary approach is essential to understanding post-colonial culture and society. The book relates black British literature to ongoing debates about cultural diversity, and thereby offers a way of reading a highly popular but as yet relatively uncharted field of cultural production. With the collapse of its empire, with large-scale immigration from former colonies, and with ever-increasing cultural diversity, Britain underwent a fundamental makeover in the second half of the twentieth century. This volume cogently argues that black British literature is not only a commentator on and a reflector of this makeover, but that it is simultaneously an agent that is integral to the processes of cultural and social change. Conceptualizing the novel of transformation, this comprehensive study of British black literature provides a compelling analytic framework for charting these processes.

Eighteenth-century Writing from Wales Jan 19 2020 *Eighteenth-Century Writing from Wales: Bards and Britons* examines Welsh writing in English in the context of recent critical debates concerning the rise of cultural nationalism and the "invention" of Great Britain as a nation in the eighteenth century. The study investigates the ways in which Anglophone literature from and about Wales imagines the nation and its culture in a range of genres including poetry, fiction, letters, and religious writing. The particular aim of the book is to gauge the extent to which Welsh writers approve, contest and/or shape emergent models of Britishness in the period. This is the first study to discuss Welsh literature in English in the context of current thinking about the literary negotiation of Britain in the eighteenth century. The range of texts to be discussed and the historical chronology of this project are unique and represent an exciting addition to current scholarship on pre-1800 Welsh literary culture.

The French Language and British Literature, 1756-1830 Dec 22 2022 From the 1750s to the 1830s, numerous British intellectuals, novelists, essayists, poets, playwrights, translators, educationalists, politicians, businessmen, travel writers, and philosophers brooded about the merits and demerits of the French language. The decades under consideration encompass a particularly tumultuous period in Anglo-French relations that witnessed the Seven Years' War (1756-1763), the American War of Independence (1775-1783), the Revolutionary and Napoleonic Wars (1792-1802 and 1803-1815, respectively), the Bourbon Restoration (1814-1830), and the July Revolution (1830) - not to mention the gradual expansion of the British Empire, and the complex cultural shifts that led from Neoclassicism to Romanticism. In this book, Marcus Tomalin reassesses the ways in which writers such as Tobias Smollett, Maria Edgeworth, William Wordsworth, John Keats, William Cobbett, and William Hazlitt acquired and deployed French. This intricate topic is examined from a range of critical perspectives, which draw upon recent research into European Romanticism, linguistic historiography, comparative literature, social and cultural history, education theory, and translation studies. This interdisciplinary approach helps to illuminate the deep ambivalences that characterised British appraisals of the French language in the literature of the Romantic period.

London Booksellers and American Customers Oct 28 2020 In 1994, James Raven encountered a letterbook from the Charleston Library Society detailing the ordering, processing, and shipping of texts from London booksellers to their American customers. The 120 letters, covering the period 1758-1811, provided unique material for understanding the business of London booksellers (for whom very little correspondence has survived) and Raven decided to publish an annotated edition of the letters. The letterbook, reproduced in its entirety, forms an appendix to the present volume, but Raven's study has blossomed from a relatively narrow examination of booksellers and their customers to a larger exploration of the role of books and institutions such as the Library Society in the formation of elite cultural identity on the fringes of empire. As a result, this meticulously researched book has much to offer scholars of gentry culture and community in the eighteenth-century British Atlantic world as well as historians of the book-Publisher's Description.

Old English Poetry: An Anthology Sep 26 2020 R.M. Liuzza's Broadview edition of *Beowulf* was published at almost exactly the same time as Seamus Heaney's; in reviewing the two together in July 2000 for *The New York Review of Books*, Frank Kermode concluded that both translations were superior to their predecessors, and that it was impossible to choose between the two: "the less celebrated translator can be matched with the famous one," he wrote, and "Liuzza's book is in some respects more useful than Heaney's." Ever since, the Liuzza *Beowulf* has remained among the top sellers on the Broadview list. With this volume readers will now be able to enjoy a much broader selection of Old English poetry in translations by Liuzza. As the collection demonstrates, the range and diversity of the works that have survived is extraordinary—from heartbreaking sorrow to wide-eyed wonder, from the wisdom of old age to the hot blood of battle, and to the deepest and most poignant loneliness. There is breathless storytelling and ponderous cataloguing; there is fervent religious devotion and playful teasing. The poems translated here are meant to provide a sense of some of this range and diversity; in doing so they also offer significant portions of three of the important manuscripts of Old English poetry—the Vercelli Book, the Junius Manuscript, and the Exeter Book.

British Literature 1640-1789 Jul 05 2021 Spanning the period from the British Civil War to the French Revolution, the fourth edition of this successful anthology increases its coverage of canonical writings, plays, and of the development of British Literature in the American colonies. A thoroughly updated new edition of this popular anthology which focuses firmly on the eighteenth century without neglecting the seventeenth century Contains new texts including the play *Rover* by Aphra Behn, and *Beggars' Opera* by John Gay; increased canonical works, including works by Dryden, Pope, and Johnson; and historical contextual materials, with particular attention to the Americas Features updated introductions throughout, taking into account recent critical works and editions Includes useful resources such as an alternative list of contents by theme, and a chronology of literary and political events, providing valuable historical and cultural context

The Tramp in British Literature, 1850-1950 Oct 08 2021 *The Tramp in British Literature, 1850-1950* offers an account of the emergence of a new conception of homelessness in the mid-nineteenth century, which it argues reflects the evolution of capitalism and disciplinary society in this period. In the process it uncovers a neglected body of literature on the subject of the tramp written by thirty-three memoir writers and eighteen fiction writers, most of whom were themselves homeless. In analysing these works, *The Tramp in British Literature* presents select texts as a unique and ignored contribution to a wider radical discourse defined by its opposition to a societal fixation upon the need to be productive.

The Broadview Anthology of British Literature: Concise Volume B - Third Edition May 23 2020 The two-volume Broadview Anthology of British Literature: Concise Edition provides an attractive alternative to the full six-volume anthology. Though much more compact, the Concise Edition nevertheless provides substantial choice, offering both a strong selection of canonical authors and a sampling of lesser-known works. With an unparalleled selection of illustrations and of contextual materials, accessible and engaging introductions, and full explanatory annotations, these volumes provide concise yet extraordinarily wide-ranging coverage for British Literature survey courses. New to this volume are Samuel Beckett's

Endgame and Robert Louis Stevenson's *Strange Case of Dr. Jekyll and Mr. Hyde*; new authors include Dorothy Wordsworth, John Clare, Tomson Highway, Derek Walcott, and Chimamanda Ngozi Adichie. The third edition now also offers substantially expanded representation of Irish, Scottish, and Welsh literatures, as well as contextual materials on Gothic literature, Modernism, and World War II. Material that no longer appears in the bound book may in most cases be found on the companion website; many larger works are also available in separate volumes that may at the instructor's request be bundled together with the anthology at no extra cost to the student. A History of British Working Class Literature Jun 23 2020 *A History of British Working-Class Literature* examines the rich contributions of working-class writers in Great Britain from 1700 to the present. Since the early eighteenth century the phenomenon of working-class writing has been recognised, but almost invariably co-opted in some ultimately distorting manner, whether as examples of 'natural genius'; a Victorian self-improvement ethic; or as an aspect of the heroic workers of nineteenth- and twentieth-century radical culture. The present work contrastingly applies a wide variety of interpretive approaches to this literature. Essays on more familiar topics, such as the 'agrarian idyll' of John Clare, are mixed with entirely new areas in the field like working-class women's 'life-narratives'. This authoritative and comprehensive History explores a wide range of genres such as travel writing, the verse-epistle, the elegy and novels, while covering aspects of Welsh, Scottish, Ulster/Irish culture and transatlantic perspectives.

[British Literature in Transition, 1900-1920: A New Age?](#) May 03 2021 During the first two decades of the twentieth century, Britain's imperial power and influence was at its height. These were years of daring, when adventurers sounded the mysteries of the deep sea and the distant poles, aviators sped through the skies, and new media technologies transformed communication. They were years of social upheaval, during which long-suppressed voices - particularly those of women, of the labouring classes, and of colonial subjects - grew louder and demanded to be heard. They were years of violence, of insurrection and political agitation, and of imperial conflicts that would encompass continents. By subjecting specific developments in literature and related culture to a fine-grained and historically-informed analysis, *British Literature in Transition, 1900-1920: A New Age?* explores the writing of this extraordinary period in all its complexity and vibrancy.
