Come meet Mister Blanche and the charming Bernard and immerse yourself in a poignant and funny story that is Geneen's best. As her loyal readership already knows: It's not about food, it's not about the cat . . . it's always been about love and how to live with it—and never live without it! When 12-year-old Nora learns that her favourite cousin, Lizzie, is about to have risky open-heart surgery, she wonders if her family will ever feel whole again, and if she can find the courage to mend her own broken heart. What you hold now is "Heart and Holes of void". An Anthology, full of emotions and the world that surrounds us all. We may feel emptiness because of the current pandemic or other problems. A masterclass in the sorrow and joy of being human, and a powerful reminder that nothing is more earth-shattering than love.'—Meg Rosoff The mother of a daughter with Down's Syndrome shares her family's journey—in beautiful black and white drawings—from hospital to

home, and from early years to school, in this moving, wise and unsparing graphic memoir. On Mother's Day 2001 Henny Beaumont gave birth to her third child. For the first four hours, her baby seemed no different from her two other little girls. When the registrar told Henny and her husband that their daughter might have Down's Syndrome, she thought that her life was over. How would she be able to look after this baby, who might die, and manage her other two children at the same time? How could this weak little baby, who needed so much more from Henny than her other two children, provoke such feelings of hatred and resentment? And how would she learn to love her? If she can't trust her own reactions to Beth, how could she expect other people to overcome their prejudices and ignorance about her condition? *Hole in the Heart* is a moving, funny, ironic and refreshingly honest look at living with a child who has special needs. Henny's remarkable journey speaks not only to parents who have had a similar experience and the medical and care professionals who try to help them, but to every one of us who feels anxiety about our children - wondering whether they are achieving enough, whether we do enough for them, and whether we love them enough. As the PE teacher asks: 'Who's really got the special needs here?' Offers a multigenerational series of portraits that follows individuals in their struggle to salvage a heritage devastated by Communism This book is a rendering in poetry of the ancient Christian practice of the Easter Vigil, held over the night between Holy Saturday and Easter Sunday. Readings from the vigil become the point of departure for poems that reflect on the reading, and then short prose "ruminations" that reflect on themes in the poems. The poems and ruminations are deeply informed by both the Christian story of the passion, death, and resurrection of Jesus and the great tradition of Jewish and Christian mysticism about the creation and redemption of the world. Stanley Yelnat's family has a history of bad luck going back generations, so he is not too surprised when a miscarriage of justice sends him to Camp

Green Lake Juvenile Detention Centre. Nor is he very surprised when he is told that his daily labour at the camp is to dig a hole, five foot wide by five foot deep, and report anything that he finds in that hole. The warden claims that it is character building, but this is a lie and Stanley must dig up the truth. In this wonderfully inventive, compelling novel that is both serious and funny, Louis Sachar has created a masterpiece that will leave all readers amazed and delighted by the author's narrative flair and brilliantly handled plot. At age 21 after nursing school in Bangkok, I met an impossibly handsome American GI who taught English to a group of nurses. We quickly fell in love, but it was unrequited. When he asked me to marry him, I could not answer, torn between my strict upbringing and my new and confusing desires. Soon thereafter my true love was gone, sent back to the United States completing his tour of duty in Thailand. Within a few months I received a letter from Freddie's friend John, who wrote that Freddie, the man I loved was getting married. The news devastated me and left me feeling empty and incomplete. A part of me had been torn away and I was left with a hole in my heart. Over the course of the next 40 years I wanted to mend that part of me and heal my heart. The only way was to find Freddie and tell him how I truly felt. If I died without finding Freddie I felt I would leave this earth with my eyes open and die with a hole in my heart. Vonda Peterson has a secret. After becoming pregnant in her teens, Vonda hides her pregnancy from her parents and puts her child up for adoption. For the next forty years, she imagines what his life must be like and how hers would have been with him. Even after marrying and having two more children, she celebrates his birthday every year. She keeps this secret from her children until she can't any longer. But will her family accept her truth? While we learn of Vonda's life through the years, we also see the happy childhood and turbulent adolescence of Kelly with his unknown-to-him adoptive parents in Rhodesia. The story follows his many adventures from being "groomed by a gay

man, groomed to hate and to kill by a country, groomed by a cult." Kelly's struggles lead him down numerous unimaginable paths that you can't help but wonder: will he ever find where he truly belongs? Co-authored by mother and son, *Hole in Our Hearts* is a memoir about perseverance, belonging, and speaking truths. The object of this book is, primarily, to assist in placing mental therapeutics on a firmly scientific basis, and incidentally to place within the reach of the humblest intellect the most effective methods of healing the sick by mental processes. Part I. contains nothing new to the scientific world, except, perhaps, the method of treatment. It pertains solely to the psychological principles of mental medicine. In Part II. the fact

is for the first time recognized that no hypothesis can possibly embrace a complete science of mental therapeutics that fails to take cognizance of those facts of physiology and histology which pertain to the subject-matter. roller coaster romance that you won't want to put down. "Mid-afternoon on a Tuesday, it occurred to Bean Jessup that she was forgetting her husband's face." So begins this smart and charmingly written debut novel about a young woman trying to start over amid the grandeur of the Alaskan landscape and the creaky confines of an isolated fishing village and its relentless and pungent salmon cannery. *A Hole in the Heart* is the story of what happens when Bean arrives after accepting a last-minute elementary-school-teaching job in a town of 2500 people on Alaska's southern coast. Love and marriage follow in short order, surprising Bean, who feels that her husband is not only the best thing to happen to her, but the only good thing. Then Mick vanishes leading amateur hikers--or "tuna" as the guides call them--up Mt. McKinley. Suddenly, Bean is thrown back upon herself and into the company of Mick's mother Hanna, an arthritic woman in her seventies who believes that "a little larceny is good for the circulation." The pair chafe at first, but eventually become partners in a road trip back to California. Mike's disappearance feels like a hole in the heart, they decide, and Hanna tells Bean to prize that hole; it's something no one can take away from her. With gentle humor, pathos, and boundless stores of hope, Marquis writes of Bean's struggle with early widowhood, loss, and moving on. An avid bird-watcher, Bean takes much of her wisdom from the Pemberton Guide to Alaska Birds. Like the globe-crossing birds she so admires, she has struggled to get aloft, but for a delicious, perhaps fleeting moment in this marvelous novel, we see her glide. Book Magazine selected Christopher Marquis as one of "Ten To Watch In 2003" for this "Proulxian saga." With its first-rate evocation of landscape and its affectionately drawn characters, *A Hole in the Heart* marks the publication debut of a prodigiously talented writer. A little Whimble begins to wonder, Why he's born with a hole in his center. He starts a journey in order to find, A simple truth that makes sense in his mind.
