Desert Survival Skills Oct 17

2019 An "authoritative, comprehensive, well written, and entertaining" guide to staying alive in the desert from a Texas Parks and Wildlife veteran (Library Journal).

Remote desert locations, including the Chihuahuan Desert of northern Mexico, southern Texas, New Mexico, and Arizona, draw adventurers of all kinds, from the highly skilled and well prepared to urban cowboys who couldn't lead themselves, much less a horse, to water. David

Alloway's goal in this book is to help all of them survive when circumstances beyond their control strand them in the desert environment. In simple, friendly language, enlivened with humor and stories from his own extensive experience, Alloway—a naturalist and search-and-rescue veteran who's worked with the US Air Force on survival skills—here offers a practical, comprehensive handbook for both short-term and long-term survival in the Chihuahuan and other North American deserts. *Popular Science* May 04 2021 Popular Science gives our readers the information and tools to improve their technology and their world. Green Street Kid Feb 19 2020

Growing up on Green Street in Laredo, Texas, Ricardo

Palacios made the wilderness his playground. The woods, the nearby creek, and the vastness of Chacon Creek Canyon transported him and his young friends away from the strife and poverty of the barrio and into the splendor of nature.

Looking back on his life, Palacios reflects on seventy years of memories—from his birth through his days at the all-male St. Joseph's Academy Catholic school, capturing the powerful camaraderie he shared with his classmates and his experiences playing high school football. He next takes a hard look at his college years,

during which he flunked out twice before finally making the commitment to graduate with honors and obtain a law degree. Palacios places his life experiences under a microscope, sharing periods of heavy alcohol use, very stressful years as a rookie attorney, and tales from the trenches about the pitfalls, successes, and failures of his legal practice. He describes his twenty-eight-year marriage, pondering how and why it failed, and tells of wonderful years raising his children on a cattle ranch, with plenty of opportunities for hunting and camping. Green Street Kid is more than the story of one man's life. It is a portrait of the life and culture of South Texas, where the majority of the population is Hispanic and conflicts sometimes develop between Hispanics and Anglos. It is a story of falling down and rising up again.

Safety and Survival Equipment for Naval

Aviation Oct 21 2022 "The Survival Officer and the Flight Surgeon have the difficult and complex job of obtaining, handling, and even maintaining a wide variety of safety and survival equipment. They have a job weighted with responsibility, for men's lives may depend on their thoroughness and efficiency. It is imperative, therefore, that they be fully informed about the equipment and that they keep abreast of all the latest developments. This manual has been prepared to help them in this task. It is not intended as a means of providing complete instruction in the use of safety and survival equipment. It is rather a training guide, with general but comprehensive coverage of the various items of safety and survival equipment. In addition, the writeups for most items list

some technical features. In some instances, more space has been devoted to certain equipment than to others. Actually there is no way of gaging the relative importance of one piece of equipment over the others. For example, in some cases, a simple flashlight might prove more important than something as complex as an oxygen system. Therefore, the length of the discussion depends more on the complexity of the equipment than its importance. In other cases, where information is readily available, as in the case of instructions attached to the equipment itself, the information given here is abbreviated."--Preface.
