This volume critically examines the transition from monopoly to competition in the U.S. and Canadian telecommunications industries. it looks at the history of the telephone industry, its regulation, and over a century of related public policy. This book is a comprehensive journey through the pathogenesis and treatment of meniscal pathology. It details the elements that are necessary to properly understand, diagnose, and treat meniscal tears, ranging from vertical tears to radial tears and root avulsions. Treatment techniques are thoroughly described and illustrated, with presentation of the latest evidence on outcomes. The algorithmic treatment of meniscal tears has undergone a rapid transformation. We have progressed from the initial treatments involving removal of the meniscus using an open technique, to the performance of partial meniscectomies and complex meniscal repairs by means of an arthroscopic technique. The current treatment goal is to maintain the biology and mechanical integrity of this vital knee structure, an aim too often disregarded by past generations of surgeons. An explosion of new knowledge, coupled with advances in arthroscopic and surgical technology, has paved the way for wider application of approaches that help to preserve the meniscus, in the hope of preventing or delaying the development of knee arthritis. This book will have utility for all clinicians who treat meniscal lesions and will serve as a valuable resource for years to come. FBI profiler Karen Vail is on the hunt for an escaped serial killer in the latest jaw-dropping thriller from USA Today–bestselling author Alan Jacobson. Jasmine Marcks was a teenager when she discovered her father was a killer. First, there was the strip of bloody duct tape; then, the bloodstain on his shirt; and finally, the long nights away from home that always coincided with gruesome deaths. Roscoe Lee Marcks killed fourteen people before he was finally put behind bars. But as renowned FBI agent Karen Vail soon learns, Marcks’s reign of terror isn’t over yet. After writing a book about growing up as the child of a serial killer, Jasmine receives a letter—a single sheet of paper mailed from the maximum-security prison Marcks now calls home. The page hides a threatening message from a father who wants vengeance against the daughter who turned him in to the police. So when Marcks breaks out of prison, Agent Vail calls on a legendary retired profiler to help her find the escaped convict—and keep him from making Jasmine his fifteenth victim. Alan Jacobson created Karen Vail—one of the most compelling heroes in suspense fiction, earning acclaim from James Patterson, Nelson DeMille, and Michael Connelly—after seven years of working with two senior profilers at the Federal Bureau of Investigation’s legendary Behavioral Analysis Unit. Over the years, Vail has tangled with the worst serial killers America has to offer. But none compares to Roscoe Lee Marcks. Teaching Difficult History through Film explores the potential of film to engage young people in controversial or contested histories and how they are represented, ranging from gender and sexuality, to colonialism and slavery. Adding to the education literature of how to teach and learn difficult histories, contributors apply their theoretical and pedagogical expertise and experiences to a variety of historical topics to show the ways that film can create opportunities for challenging conversations in the classroom and attempts to recognize the perspectives of historically marginalized groups. Chapters focus on translating research into practice by applying theoretical frameworks such as critical race theory, auto-ethnography or cultural studies, as well as more practical pedagogical models with film. Each chapter also includes applicable pedagogical considerations, such as how to help students approach difficult topics, model questions or strategies for engaging students, and examples from the authors’ own experiences in teaching with film or in leading students to develop counter-narratives through filmmaking. These discussions of the real considerations facing classroom teachers and professors are sure to appeal to experienced secondary teachers, pre-service teacher education programs, graduate students, and academic audiences within education, history, and film studies. Part and chapter discussion guides, full references of the films included in the book, and resources for teachers are available on the book’s companion website [www.teachingdifficulthistory.com](http://www.teachingdifficulthistory.com). Introducing FBI profiler Karen Vail, who crosses paths with a Virginia serial killer in the first in the bestselling series. Special Agent Karen Vail “is a knockout, tough and brilliant” (Tess Gerritsen). As lead profiler for the FBI, Vail is spearheading the task force investigation into a serial killer known as “Dead Eyes,” who’s been terrorizing Fairfax County, Virginia. What separates this psychopath from the others is a peculiar savagery, and an intimate knowledge of the FBI’s detailed strategy of pursuit. What separates Vail from her peers is a life that has made her hard and uncompromising. Recently divorced from an abusive husband, and in the throes of an ugly custody battle, she’s also helpless against her mother’s struggle with Alzheimer’s. But little by little, as Vail’s personal baggage begins to consume her, the investigation threatens to derail. Now she’s weighing her last hope on a controversial profile. It suggests that the one key to solving the case lies with the seventh victim. But that key will also unlock secrets that could destroy Vail’s career, and expose a truth that even she might not be strong enough to survive. In compiling his research for *The 7th Victim*, Alan Jacobson was allowed wide-ranging access to the FBI’s behavioral profiling unit over several years. Named one of the top five books of the year by *Library Journal*, it’s “a quantum leap in terror and suspense. . . . A masterpiece” (New York Times–bestselling author James Rollins). Announcements for the following year included in some vols. Originally published: Northridge, California: Premier Digital Publishing, A2013. This is the sixth volume of Dr. Justin Glenn’s comprehensive history that traces the “Presidential line” of the Washingtons. Volume One began with the immigrant John Washington, who settled in Westmoreland Co., Va., in 1657, married Anne Pope, and became the great-grandfather of President George Washington. It continued the record of their descendants for a total of seven generations. Volume Two highlighted notable family members in the next eight generations of John and Anne Washington’s descendants. Volume Three traced the ancestry of the early Virginia members of this “Presidential Branch” back to the aristocracy and nobility of England and continental Europe. Volume Four resumed the family history where Volume One ended, and it contained Generation Eight of the immigrant John Washington’s descendants. Volume Five treated Generation Nine. Volume Six now presents Generation Ten, and it includes over 12,000 descendants. Future volumes will add generations eleven through fifteen, making a total of over 63,000 descendants. Although structured in a genealogical format for the sake of clarity, this is no bare bones genealogy but a true family history with over 1,200 detailed biographical narratives. These in turn strive to convey the greatness of the family that produced not only The Father of His Country but many others, great and humble, who struggled to build that country. Volume Six, Part One covers the descendants of the Immigrant John Washington’s children Lawrence Washington and John Washington, Jr. Volume Six, Part Two covers the descendants of the Immigrant’s child Anne (Washington) Wright. New Series: Tragedy sends Amy Robbins into her own personal hell. When an enemy tries to take her final hope, FBI Agent Loren Ryder squares off against evil, separating the good guys from the bad. 'Australia First' is a good slogan that has been adopted by several quite different political ideologies. This book deals with the movement that developed slowly from about 1936 and came to an inglorious end in 1942. It grew out of the Victorian Socialist Party and the Rationalist Association. At first it attracted literary figures such as Xavier Herbert, Eleanor Dark, Miles Franklin. When it became heavily political, among its members were former communists and a Nazi Party member: some worked for the Labor Party, some for the United Australia Party (later the Liberal Party). One was a paid agent of the Japanese. Some were connected with Theosophy, some with Odinism, and in Victoria most were Irish Catholics with links to Archbishop Mannix and Sein Fein. Among their close friends were John Curtin, Dr Evatt, Arthur Calwell, Jack Beasley, Robert Menzies, Percy Spender, Archie Cameron. Several had contacts with Oswald Mosley’s British Union of Fascists, and with the Imperial League of Fascists and National Socialists. One had met Hitler and corresponded with General Ludendorff. Two composed and circulated anonymous subversive pamphlets. Others imported Nazi propaganda, one even during the war through the German Consulate-General in New York. At its core was a coterie of elderly men with too much time, too much money, and little common sense. 'Inky' Stephensen was the public face of the AFM and was responsible for the crude and vulgar style of its monthly magazine, the *Publicist*. But behind it all was Billy Miles, a cynical, arrogant manipulator, who turned it into a vehicle for anti-Semitic propaganda. He who wrote: "What is the solution to the Jewish question? There can be none while a Jew lives." Its downfall was precipitated less by its fascist and Nazi tendencies than by its close association with the Japanese. In the end, the interment of AFM adherents was used by both Labor and Liberal politicians as a stick with which to beat each other, until the wrongs and rights of the affair became buried under political abuse. In the USA Today–bestselling author’s “addictive second Karen Vail thriller,” the FBI profiler tracks a serial killer through California wine country (Publishers Weekly). In this follow-up to the standout bestseller *The 7th Victim*, Karen Vail ventures to Napa Valley, where a serial killer has been crushing his victims’ windpipes and leaving their bodies in caves. But when the Crush Killer learns that an FBI profiler has joined the Major Crimes Task Force, the newfound attention emboldens him, and he sets in motion a plan that wreaks havoc on the town—as well as the task force. Although a sudden break in the case helps Vail zero in on the identity of the killer, she senses that something isn’t right. If she doesn’t figure it out in time, the consequences will be dire. In a rousing climax that leaves readers breathless, and which Publishers Weekly termed a “shockeroo ending,” Vail must pick up the pieces—and clean up the carnage left behind by the Crush Killer. Meticulously researched during years of work with the FBI’s Behavioral Analysis Unit, this high-velocity thriller from national bestselling author Alan Jacobson features the kind of edge-of-your-seat ending that inspired Nelson DeMille to call Jacobson “a hell of a writer.” *Crush* is the first installment of a two-part story that concludes with *Velocity*, book three in the Karen Vail Series. The FBI profiler teams up with Scotland Yard in this “outstanding thriller” by the USA Today–bestselling author of *The 7th Victim* (*Library Journal*, starred review). When a potent firebomb destroys part of an art gallery in an exclusive London district, FBI profiler Karen Vail is dispatched to England to work with Scotland Yard on drafting a threat assessment to head off future attacks. But Vail soon discovers that at the heart of the bombing lies a four-hundred-forty-year-old manuscript that holds clues to England’s past—with dramatic political and social implications. The manuscript’s content is so explosive that a group of political radicals is bent on destroying it at all costs. Or is it the work of someone else? The trail leads Vail to a notorious fugitive who has escaped law enforcement for decades, and who appears to be planning a major attack on London and the United States. When Hector DeSantos, banished from the US Department of Defense and now a rogue covert operative, turns up in England and takes actions that threaten Vail’s life, she finds herself on the run from the British security service, Scotland Yard, and a group of internationally trained assassins—all determined to silence her. . . . all tightening the net to ensure that she’s got no way out. With his trademark spirited dialogue, page-turning scenes, and well-drawn characters, national bestselling author Alan Jacobson (“My kind of writer,” says Michael Connelly) has once again crafted an intelligent, twisting thriller destined to be talked about long after the last page has been turned. This thriller duology featuring FBI profiler Karen Vail “sizzles with nonstop action” (Publishers Weekly). In FBI profiler Karen Vail’s second adventure after the standout bestseller *The 7th Victim*, Vail finds herself in the Napa Valley, where a serial killer has been crushing his victims’ windpipes and leaving their bodies in caves and vineyards. But when the Crush Killer learns that an FBI profiler has joined the Major Crimes Task Force, the newfound attention emboldens him, and he engages Vail in a deadly game of cat and mouse. Although a sudden break in the case helps her zero in on the identity of the killer, she senses that something isn’t right. Will she figure it out before it’s too late? In a rousing climax that has left readers breathless (and that Publishers Weekly termed “a shockeroo”), Vail must pick up the pieces—and the carnage left behind by the Crush Killer. *Velocity* begins the moment *Crush* ends, with Vail having lost something dear to her and possessing a single-minded fixation on finding who was responsible—and making them pay. As the task force, reeling from their loss, attempts to regroup, Vail discovers that they had made vital mistakes on the Crush Killer case—errors that have had dire consequences. After being ordered to return to Washington, Vail enlists the services of a covert “black” government operative, Hector DeSantos, to assist her in tracking down those behind the evil she and her task force have been grappling with. But what Vail and DeSantos learn places her in the crosshairs of criminals more dangerous than any she has ever faced. And along the way, startling revelations emerge that will forever change Karen Vail—as well as those close to her. Researched meticulously with over three dozen experts in multiple disciplines and with government access that required clearance from a congressional subcommittee, *Crush* and *Velocity* take you behind closed doors into a world most people do not know exists. Both *Crush* and *Velocity* were optioned by Hollywood, and *Velocity* was named one of the “Top 5 Best Books of the Year” by *Library Journal*. How do you build a community from scratch? What kind of people undertake building a world-class resort the scope of Vail, Colorado? What motivated them and what entrepreneurial principles did they call upon? Not until *The Making of a Community* has the history of how it evolved from a business and organizational perspective been written. With a subtitle of *The Vail Way*, it describes how it happened – in what way – did the Vail Vail become so popular. More importantly, it’s a story of entrepreneurs who created something special out of nothing. It’s the story of realizing a dream. The book explores the motivations that drove the founders and those who have followed. Who were the people – the leaders – who helped bring it to fruition? The Vail way is rooted in entrepreneurship. It’s demonstrated regularly through the values, principles, and attitudes exhibited by entrepreneurs. Beyond vision, there’s resilience, trust, focus, and teamwork. In the end, something extraordinary was built. In the 87 issues of *Snow Country* published between 1988 and 1999, the reader can find the defining coverage of mountain resorts, ski technique and equipment, racing, cross-country touring, and the growing sport of snowboarding during a period of radical change. The award-winning magazine of mountain sports and living tracks the environmental impact of ski area development, and people moving to the mountains to work and live. In Hawaii, FBI agent Karen Vail pursues a killer without a profile, in this thriller by the USA Today–bestselling author of *The Darkness of Evil*. When Det. Adam Russell of the Honolulu PD encounters the body of a woman in her sixties—the second in recent days to inexplicably die of what seem like natural causes—he reaches out to Karen Vail, the renowned FBI profiler, who hops on the next plane. But even for someone as fluent in the language of murder as Vail, this case is hard to read. How were these women asphyxiated with no signs of trauma? How can she gather clues or collect evidence when the killer seems to strike during the briefest casual encounters? Is this the behavior of a male or a female perpetrator? And perhaps most terrifying of all, if the deaths appear so natural at first glance, how many victims have already been overlooked? Now, as something cold and dark lurks under the sunny warmth of this island paradise, Vail must stop a serial killer as elusive as the breeze. . . . “Karen Vail is one tough character.” —Kathy Reichs, New York Times–bestselling author “Jacobson should be mandatory reading for the James Patterson crowd.” —*Library Journal* “A unique and imaginative plot filled with witty dialogue and page-turning intrigue.” —Catherine Coulter, New York Times–bestselling author After an assassination attempt on the president-elect, the OPSIG team is on the hunt in this “terrific thriller” from the USA Today–bestselling author (Lee Child). *Hard Target* by Alan Jacobson is a ticking time bomb that will keep you clinging to the edge of your seat. . . . and turning the pages. An explosion pulverizes the president-elect’s helicopter on election night. It soon becomes clear that the group behind the assassination attempt possesses far greater reach than the FBI Joint Terrorism Task Force has yet encountered—and a plot so deeply interwoven in the country’s fabric that it threatens to upend America’s political system. Thomas Clemence was born in about 1625 in England. He married Elizabeth in about 1649. They had four known children. He died 9 March 1687/8 in Providence, Rhode Island. Descendants and relatives lived mainly in Rhode Island. From a USA Today–bestselling author: FBI profiler Karen Vail’s hunt for a serial killer leads her into a dangerous criminal web—“relentless as a bullet” (Michael Connelly). After a colleague connects Vail with covert Department of Defense operative Hector DeSantos, who has a knack for uncovering difficult-to-locate information, the pair pries loose long-buried secrets and deceptions that reveal a much-larger criminal enterprise at work. As Vail squares off against foes more dangerous than any she has yet encountered, shocking personal and professional truths emerge—truths that may be more than she can handle. In keeping with Alan Jacobson’s page-turning style, *Velocity* is a high-octane thriller, a memorable work rich in believable characters and an intricately plotted story that’s well-researched and ripped from today’s headlines. *Velocity* was named one of the *Strand Magazine*’s top ten books for 2010, *Suspense Magazine*’s top five thrillers of 2010, *Library Journal*’s top five thrillers of the year, and the *Los Angeles Times*’ top picks of the year. *Velocity* is the second installment of a two-part story that begins with *Crush*, book two of the Karen Vail Series. *American Motorcyclist* magazine, the official journal of the American Motorcyclist Associaton, tells the stories of the people who make motorcycling the sport that it is. It’s available monthly to AMA members. Become a part of the largest, most diverse and most enthusiastic group of riders in the country by visiting our website or calling 800-AMA-JOIN. As the years pass, Vail’s career takes unexpected twists and turns—as does the case that’s come to be known as Hades. Now a skilled FBI profiler, will Vail be in a better position to catch the killer? Or will Hades prove to be Karen Vail’s hell on earth? The character who has captivated readers worldwide—and who won the praise of literary giants Michael Connelly, James Patterson, and Nelson DeMille—returns in a story that captures the experiences that shaped the revered profiler and made her the top cop she is today. In this “brilliant” thriller from the USA Today–bestselling author, ancient biblical documents are at the center of a devastating terrorist threat (Jeffery Deaver). In 930 CE, a revered group of scholars pens the first sanctioned Bible, planting the seed from which other major religions will grow. But in 1953, half the manuscript goes missing while being transported from Syria. Around the same time, in the foothills of the Dead Sea, an ancient scroll is discovered—and promptly stolen. Six decades later, both parchments stand at the heart of a geopolitical battle between foreign governments and radical extremists, threatening the lives of millions. With the American homeland under siege, the president turns to a team of uniquely trained covert operatives including FBI profiler Karen Vail, Special Forces veteran Hector DeSantos, and FBI terrorism expert Aaron Uziel. Their mission: Find the stolen documents and capture—or kill—those responsible for unleashing a coordinated and unprecedented terrorist attack on US soil. Set in DC, New York, Paris, England, and Israel, *The Lost Codex* has been hailed by Douglas Preston as “a masterwork of international suspense” and “an outstanding novel.” **HAMMOND ORGAN - BEAUTY IN THE B - 2ND EDITION** A surgeon charged with double homicide is out to clear his name in this debut thriller from the USA Today–bestselling author of the Karen Veil series. Dr. Phillip Madison has everything: wealth, power, and an impeccable reputation. But in the pre-dawn hours of a quiet California suburb, the revered orthopedic surgeon is charged with double homicide—a cold-blooded hit-and-run that has left an innocent young couple dead. Blood evidence has brought the police to his door. An eyewitness has placed him at the crime scene. . . . and Madison has no alibi. With his family torn apart, his career forever damaged, no way to prove his innocence, and facing life in prison, Madison hires an investigator to find the person who has engineered the case against him. As his privileged world is brought crashing down by a psychotic seductress, as family and friends abandon him, Madison’s only hope for vindication rests in revealing a truth at the heart of a lie. It is a disclosure that could cost him more than he ever imagined. *False Accusations* is a psychological thriller that instantly became a national bestseller and launched Alan Jacobson’s career, a novel that spurred CNN to call him “one of the brightest stars in the publishing industry.” An exploration of the elaborate relationship between farmers, aerial sprayers, agriculturalists, crop pests, chemicals, and the environment. The controversies in the 1960s and 1970s that swirled around indiscriminate use of agricultural chemicals—their long-term ecological harm versus food production benefits—were sparked and clarified by biologist Rachel Carson’s *Silent Spring* (1962). This seminal publication challenged long-held assumptions concerning the industrial might of American agriculture while sounding an alarm for the damaging persistence of pesticides, especially chlorinated hydrocarbons such as DDT, in the larger environment. In *Chemical Lands: Pesticides, Aerial Spraying, and Health in North America’s Grasslands* since 1945 David D. Vail shows, however, that a distinctly regional view of agricultural health evolved. His analysis reveals a particularly strong ethic in the North American grasslands where practitioners sought to understand and deploy insecticides and herbicides by designing local scientific experiments, engineering more precise aircraft sprayers, developing more narrowly specific chemicals, and planting targeted test crops. Their efforts to link the science of toxicology with environmental health reveal how the practitioners of pesticides evaluated potential hazards in the agricultural landscape while recognizing the production benefits of controlled spraying. *Chemical Lands* adds to a growing list of books on toxins in the American landscape. This study provides a unique Grasslands perspective of the Ag pilots, weed scientists, and farmers who struggled to navigate novel technologies for spray planes and in the development of new herbicides/insecticides while striving to manage and mitigate threats to human health and the environment. From a USA Today–bestselling author: Three “wild page-turning” thriller novels of covert operations around the globe (NPR on *The Hunted*). *The Hunted*: When a woman’s husband mysteriously disappears, her search uncovers his hidden past involving the FBI, international assassins, and government secrets that some will go to great lengths to keep hidden. As *The Hunted* hurtles toward a twisting conclusion, nothing is as it seems. “Impossible to put down” (*Library Journal*). *Hard Target*: The president-elect’s helicopter is sabotaged in this “terrific thriller” (Lee Child) that “explodes from the pages” (Vince Flynn) involving an enigmatic covert operative, an FBI agent with a mysterious past—and a terror plot unlike any in history. *The Lost Codex*: A stolen ancient Biblical scroll sits at the heart of a modern-day high-stakes geopolitical conflict in this “masterwork of international suspense” that ricochets from DC to Paris to Israel and beyond (Douglas Preston).
