Bringing the school day to a peaceful end enhances learning and reaffirms classroom community. Gather with your class for a 5- or 10-minute activity before dismissal and you'll all leave school feeling encouraged and competent. This book contains 50 easy-to-do activities for the end of the day: songs and chants, individual reflection questions, energetic cheers, silent cheers, quick partner and group chats, team or class challenges, quiet think time, and more. Use the activities as written or make them your own by adapting them to fit your students' mood or developmental

needs. Handy size and spiral binding for easy classroom reference. Strengthen students' language, memory, and attention skills with Literacy Activities for Circle Time: Rhythm and Rhyme for grades PK–1. This 96-page book provides hands-on, cross-curricular activities that develop children's emerging literacy skills. The book provides ideas that engage students through listening, watching, imitating, cooperating, playacting, singing, and chanting. It aligns with state and national standards. Positive Intervention for Pupils who Struggle at School provides the resources and information primary teachers need to ensure a happy and effective school experience for all children, particularly those who are seriously struggling. This tried and tested intervention is designed specifically for those children who have been through all the standard interventions, to no avail, and who are now in danger of being excluded. Explaining the thinking behind the suggested modified curriculum, this innovative book considers the reasons why certain children experience difficulties and looks at how this curriculum addresses their needs and enables them to develop personal, social and emotional skills. The activities are chosen to develop and enhance skills for learning, including listening, speaking, concentrating, a positive disposition and a willingness to take on new challenges. Helen Sonnet demonstrates how success has been achieved through this strategy and provides valuable information to help teachers to set up similar groups in their own schools, including how to: ensure firm foundations for the group select the children who will benefit most establish the structures and routine of a successful group assess the children's progress reintegrate children into their mainstream classes effectively. In line with government initiatives this important and effective intervention strategy can make the world of difference, giving teachers new, proven strategies to enable them to support children who are struggling in mainstream primary schools. ?This book is an essential starting point for practitioners who are new to Circle Time as it includes activities specifically for adults, helping to familiarise themselves with the process? - Early Years Update ?This is an excellent book full of practical circle time activities and experiences....The benefits of the potential life skills acquired through the use of this resource are immeasurable because it will help communication and problem solving skills, show participants how to be flexible, to get along with others, deal with conflict, take sensible measured risks and make wise decisions? - Early Years Educator ?Working as a supportive reference, resource manual and catalyst, the text affirms the partnership between school, family and community...[It] will boost the effectiveness of Circle Time - as a respected program in social / emotional learning, and tool for empowering youth? - Bendigo Weekly ?The beauty of this book lies in the

simplicity of the activities. Anyone can follow the instructions and get amazing results. Individuals who have developed walls around themselves as a defence to cover up their low self esteem also react with wonder and bewilderment during these activities. A good self affirming experience during Circle Time goes a long way in helping us manage the darkest moments of our lives. Even the most reticent people open up during Circle Time? - Aroona Sharma, Ex-Head PSHE The British School, New Delhi, Counsellor, Psychotherapist Murray White was the first British author to publish a book on Circle Time and his classic Magic Circles helped to raise the profile and popularity of Circle Time during the 90s. This new and revised edition provides both the theoretical underpinnings and practical advice you need to help raise self-esteem through Circle Time. The resource also includes a 60 minute audio CD to introduce guided imagery to help build self-esteem. It takes the listener through a number of journeys, helping to develop imagination, improve concentration and increase self - confidence. The book provides a range of exciting activities to use in Circle Time to develop a sense of: · security · identity · belonging · purpose · competence · well-being The benefits of participation in this process both for individuals and society are clearly explained. The ability to communicate well, take sensible risks, make wise decisions, be flexible, deal with conflict and stress, solve problems and get along with others are all enhanced by this experience. To take account of the popularity of the first edition among adults, circle activities are now included especially for their use. Everyone will benefit from the Circle Times in this book. Murray White represents the U.K. on the International Council for Self Esteem and emerges as the earliest and most significant influence on the establishment of Circle Time in the UK. Circle Time Ideas features 101 teaching ideas to be used for early learners during circle time. Activities span multiple curriculum areas including math, language development, science, art, music and more. Strengthen students' language, memory, and attention skills with Literacy Activities for Circle Time: Music and Poetry for grades PK-1. This 96-page book provides hands-on, cross-curricular activities that develop children's emerging literacy skills. The book provides ideas that engage students through listening, watching, imitating, cooperating, playacting, singing, and chanting. It aligns with state and national standards. Sheryl Sandberg's Lean In is a massive cultural phenomenon and its title has become an instant catchphrase for empowering women. The book soared to the top of bestseller lists internationally, igniting global conversations about women and ambition. Sandberg packed theatres, dominated opinion pages, appeared on every major television show and on the cover of Time magazine, and sparked ferocious debate about women and

leadership. Ask most women whether they have the right to equality at work and the answer will be a resounding yes, but ask the same women whether they'd feel confident asking for a raise, a promotion, or equal pay, and some reticence creeps in. The statistics, although an improvement on previous decades, are certainly not in women's favour – of 197 heads of state, only twenty-two are women. Women hold just 20 percent of seats in parliaments globally, and in the world of big business, a meagre eighteen of the Fortune 500 CEOs are women. In *Lean In*, Sheryl Sandberg – Facebook COO and one of Fortune magazine's Most Powerful Women in Business – draws on her own experience of working in some of the world's most successful businesses and looks at what women can do to help themselves, and make the small changes in their life that can effect change on a more universal scale. This book was written for group conductors, trainers and therapists who work with groups. This book can be used by veterans and new trainers alike. This is a guide to help you plan and implement workshops while building group dynamics. This book is a stellar collection of 50 different games, exercises and activities, with many variations, that all work well in a circle. The book is here to help you plan well thought out and properly structured activities and productive rehearsals and workshops. You'll find here activities that support new groups with introductions, ice-breakers, physical and voice warm-ups, to deeper activities that build energy in the room, encouraging focus, playfulness, trust-building and even closer connections between participants. There are also sections on improvisation. Each activity is clearly broken down into several components, starting with the objectives, time allotment, supplies and preparation before the exercise, to a step by step guide for how to teach each exercise with precise details and explanations, and finishes with a reflective conversational piece. Throughout the book there are spaces available for the reader to write their own reflections and learning and the ability to tweak and change the activity to meet their own personal needs. In this book, a distinguished group of early childhood special educators and researchers explores the barriers to and influences on inclusive education settings for young children. Chapters cover such timely topics as individualized instruction, social relationships of children with disabilities, collaborative relationships among adults, family perceptions of inclusion, classroom ecology and child participation, community participation, social policy, and cultural and linguistic diversity. Expert contributors, addressing each of these topics, draw useful implications for practitioners-providing helpful suggestions for modifying activities, materials, environmental supports, and teaching strategies. Based on a groundbreaking 5-year research study conducted by the Early Childhood Research Institute on Inclusion,

Widening the Circle is a must read for all professionals working in inclusive settings. Essential Elements in Early Intervention is a complete sourcebook and guide for early interventionists, teachers of students with visual impairments, and other professionals who work with young children with visual impairments, dual sensory impairments, and multiple disabilities. It includes comprehensive information on vision and hearing examinations, functional vision and hearing assessments, and effective methods of providing early intervention services. The new edition includes expanded, updated information on federal special education legislation, best practices in early intervention, evidence-based outcomes, and the role of the early interventionist, as well as strategies for working with families and educational teams successfully. Includes CD-rom! This creative book uses music, song, poetry and a host of practical ideas to engage children in Circle Time Activities. The publication stems from Yvonne's own work in schools where 26 alphabetical themes have been centralised around a lovable bear character. There are four strands in the book which are linked to the Social Skills curriculum. - Self esteem - Relationships - Communications - Spiritual and Moral Development These strands are developed through the 26 themes from 'Adorable' bear to 'Zig Zag' bear with a weekly introduction of a new rhythm to accompany the poem. For each theme there are comprehensive notes for teachers with lots of ideas on the content of each theme. The DVD- ROM contains all 26 poems and songs, recited or sung by the children. The DVD-Rom also includes printable posters and positive thought sheets. As an experienced teacher Yvonne offers not only a comprehensive practical resource that all teachers will find useful and time saving, but she also provides links to Citizenship, planning sheets for PSHE, lesson objectives and full lesson notes, providing all the support busy teachers need. A very exciting practical resource, easy to use and built on a very solid foundation of many years of expertise and practice. Sharpen geometry students' critical-thinking skills with brain-teasing activities. Parents, students, and teachers will love these fun challenges, puzzles, and logical thinking pages. They're a great way to practice higher-order thinking skills. If you are just starting to plan circle time activities or just want some ideas for the youngest children, this book is ideal. It explores the first stages of circle time through easily planned activities with extensions for the children who are ready for them. Includes CD-Rom By combining the traditional classroom activity of reading stories with Circle Time, these activities provide students with opportunities to practise listening, expressing ideas, asking questions, using imagination, making predictions, experimenting with thinking and learning strategies and collaborating with other students. Each of the six stories in this book

is linked to a series of key questions, games and activities. These help the students to explore the stories' contexts (time and place) and patterns (plot and choice) and to analyze the characters and their own emotional responses. All the stories and activities are easily printable from the accompanying CD-rom. Written for teachers in primary settings, this book is linked to the National Literary Strategy and the PSHE curriculum. Contains more than six hundred circle time and group activities designed by teachers to use with children three to six years old, each including a suggested age, a list of materials, and step-by-step directions, and features lists of related books, songs, and poems. Circle Time Ideas features 101 teaching ideas to be used for early learners during circle time. Activities span multiple curriculum areas including math, language development, science, art, music and more. `As a teacher who has specialized in supporting "at risk" students I believe the use of Circle Time can be of help bridge the academic/ral divide. The authors, quite rightly, emphasise the Circle Times in not an advice sympathy or therapy group and they also write "pupils who have a positive view themselves are likely to achieve more, both socially and academically, than those pupils whose self-esteem in low?" - Simon Wheeler, Suffolk LEA Pupil Behaviour Project Officer Teresa Bliss and George Robinson explore the impact that Circle Time can have on the development of social behaviours, ethics and morality. Many new activities are added to the original repertoire. The book includes: " a link between Circle Time and the teaching of the moral and spiritual curriculum " a plan for a terms developmental work " ways in which issues starting outside the circle can be supported within the security of an already established circle group " worksheets to increase the range of activities. This book is the answer to teachers who ask for more ideas to extend the Circle Time programme. Circle time stimulates learning in all areas of development – from the improvement of social skills and positive relationships to encouraging children to listen to each other within a caring and respectful environment. Judith Harries brings together creative ideas for circle time where learning can be shared and music and drama can be enjoyed. The book includes circle time activities and games that cover all of the Early Learning Goals through the sharing of thoughts, feelings and experiences. It can also be used across the curriculum, including helping children with literacy and mathematics through phonics and number games. This timeless collection of ideas featuring colourful and fun photography is a fantastic resource with many new activities for circle time, as well as some old favourites. Circle time is a very popular activity in today's schools and creates a safe, fun environment where children can think about their relationships, their behaviour, and be honest about their problems and feelings. In this book, the highly

successful and popular author Mal Leicester offers a range of lively and engrossing stories, poems and songs for use in circle time activities and assemblies. They are specially written to develop the cognitive and emotional development of young children and aim to encourage active and responsible participation. Using plentiful illustrations, photocopiable pages and practical activities, the author links twelve key value-based themes in the circle time stories to stimulate discussion and enhance pupils' literacy skills and citizenship education. All children love stories and these wonderful saint stories are no exception. They put children in touch with the key events in the saints life, but also with the Church's liturgical year. Using symbols and seasons to great advantage, the author creates here beautiful and meaningful moments for sharing these stories. She believes that celebrating the saints gives children at least two experiences they rarely encounter, both vital to a healthy spirituality: taking time for reflection and learning the language of symbols. Whether in a religion class or at home, children will love hearing about Nicholas, Lucia, John Bosco, Bridget, Bernadette, Peter, Martin de Porres, Mary, and twenty-eight others. Strengthen students' language, memory, and attention skills with *Literacy Activities for Circle Time: Story Time* for grades PK–1. This 96-page book provides hands-on, cross-curricular activities that develop children's emerging literacy skills. The book provides ideas that engage students through listening, watching, imitating, cooperating, playacting, singing, and chanting. It aligns with state and national standards. Turn circle time into learning time with *Circle Time Activities*. These activities foster social and emotional development and develop basic math, problem solving, language, music, movement, and literacy skills. A Concept and Activity Matrix are included to help educators identify, focus, assess, and enhance specific skills of each student. Its 160 pages include hundreds of child-tested and developmentally appropriate group activities.

Why pursue balance, trying to please everyone, giving a little to everything, and suffer the constant stress of trying to do it all? Think about it, when a newly married man says he needs more work-life balance, what he is truly saying is he needs to spend more time at home...even if it means less time at work. A woman who is seeking a promotion at work tends to find more fulfillment when she spends more time at work, even if it means less time at home for that time period. As Alain de Botton, a Swiss-British writer and television presenter so eloquently put it – “There is no such thing as work-life balance. Everything worth fighting for unbalances your life.” This is what The Center Circle Approach is about. It provides a refreshingly simple, yet profound new take on the subject of living a fulfilled life. It equips you to ditch the concept of a “balanced life” for that of a “centered life”, one that may seem

unbalanced but is centered on your key priorities. Written for anyone using Circle Time with 3 to 7 year olds, this book sets out strategies and activities for making the most out of Circle Time sessions. Pre and post-activities are included, to encourage children to focus on the content of Circle Time as a way of sharing their work, ideas and thoughts. The book provides 11 different themes that can be linked to PSHCE, ranging from Caring for Others to Keeping Safe. Each theme provides:

- o aims
- o Circle Time activities
- o Draw and Talk
- o follow-up activities and suggestions for display
- o resources
- o reflections and evaluations.

Margaret Collins is a former headteacher of infant and first schools. She is now Senior Visiting Fellow in the School of Education at the University of Southampton. She researches children's perceptions of health education topics, writes teaching materials for children, books and articles on PSHE. Doug Goodkin offers music teachers a variety of ways to reach all types of students. This extensive book includes more than 35 activities organized by musical, linguistic, logical-mathematical, visual-spatial, bodily-kinesthetic, and personal intelligences. A great variety of percussion circle games for all ages is included as well as games for choosing instruments. Margaret Collins draws on the successful format of her best selling book, Circle Time for the Very Young to present another user-friendly publication that assists in meeting the needs of the Personal, Social and Health Education curriculum. There are 16 sections focussing on different aspects of safety, from the journey to school, to being in the sun, to interacting with others. Activities for younger pupils appear on the left hand pages of the book with more challenging tasks for older children on the right. This layout has proven to be very popular with teachers who are looking for ways to offer Circle Time activities differentiated for children of different ages and social competencies. Each section includes full instructions for: " Circle Time " Draw and Talk (younger pupils) " Draw and Write (older pupils) " Two pages of developmental activities " A final page on reflect and remember. This is a beautifully illustrated book full of brilliant activities that will engage children and promote their learning about safety.

Margaret Collins is a former headteacher of an infant and first school. She is now Visiting Fellow in the School of Education at the University of Southampton. She researches children's perceptions of health education topics, writes and co-writes teaching materials for children, books and articles on personal, social, health and citizenship education (PSHCE). A Math Circle is any group of people gathering to explore mathematics - it could be in your home, in school, or even online. Math circle activities are often interactive, exploratory, flexible, open-ended, and social. This might sound like a really fun idea, but how does one make it happen? Five

Fabulous Activities for Your Math Circle will help show you how. This book is a guide and a collection of recipes for anyone who wants to help others discover joyful and challenging math. Our book will help you guide mathematical learners of a wide variety of ages. We primarily target middle and high school students. We have also included activities and explanations intended for younger math friends. The underlying mathematics can be of interest even to adult learners, including the authors! Emotional literacy has become an important issue in schools, and the ethos behind Circle Time is complementary to the thinking behind this. The Social, Emotional and Behavioural Skills curriculum (SEBS) is being established in schools, and it is recognised as contributing to a positive and successful school environment. Offering many new ideas and activities to try out in Circle Time, this book covers: - why your school needs Circle Time - how you go about starting Circle Time in your school - the underlying philosophy and basic rules - the role of the teacher as facilitator - how you make it work - what to do if language and attention issues are problematic - how to tackle common problems that can occur. The activities look at promoting listening and attention skills, self-awareness and self-esteem, class cohesion and empathy, co-operation and friendship skills. Strengthen students' language, memory, and attention skills with Literacy Activities for Circle Time: Alphabet for grades PK-1. This 96-page book provides hands-on, cross-curricular activities that develop children's emerging literacy skills. The book provides ideas that engage students through listening, watching, imitating, cooperating, playacting, singing, and chanting. It also includes reproducible letter and sign language cards and aligns with state and national standards. Bright Ideas is crammed with lively easy-to-use ideas to brighten up your day. * Very simple to use - slot into your existing teaching. * Ideal for busy teachers - one page per activity. * Fresh, ready-to-use teaching ideas and resources. * Addresses the real day-to-day needs of the classroom teacher. Contains a variety of activities for preschool age children that encourage children to pay attention. Written for the busy classroom teacher, this book provides quick access to an abundance of Circle Time activities. Building on the success of the first edition, this new book retains the original edition's clarity and ease-of-access, whilst providing more than twice as much material. It has also been updated to take account of new legislation, including Every Child Matters and The National Standard for Healthy Schools. Clear headers guide the reader to core games and appropriate themes, each with helpful hints for planning and implementation, and to assist the smooth running of the sessions. The theme section demonstrates ways of using core Circle Time activities such as 'Sentence Completion' and 'Silent Statements' to explore

sensitive issues such as friendships and bullying. An important new feature is a structure to help readers understand what they should be expecting from pupils during Circle Time at each key stage. New and expanded sections on group work and the development of Circle Time are also included. This is a valuable resource for teachers, educational psychologists and youth workers, whether they are experienced Circle Time practitioners or new to the technique.
